

NAZIR ALI SIDDIQUI

FRONTEND DEVELOPER

REACT.JS | TYPESCRIPT | NEXT.JS | REDUX

itsnazirali1010@gmail.com | +91 7007297120 | Gurgaon, Haryana | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

React JS Developer with 3+ years of experience designing and developing scalable, high-performance frontend applications using React.js, TypeScript, and modern JavaScript (ES6+). Expert in React Hooks, functional components, component lifecycle, state management (Redux, Context API), closures, and async programming. Strong hands-on experience building reusable, modular UI components and front-end libraries. Proficient in RESTful API integration, responsive design (HTML5, CSS3), performance optimization, and frontend architecture decisions. Experienced in leading code reviews, enforcing coding standards, and ensuring code quality across teams.

TECHNICAL SKILLS

React.js, Next.js, Redux	TypeScript, JavaScript (ES6+)	REST APIs, Webpack, NPM
React Hooks, Context API	HTML5, CSS3, Responsive Design	Jest, Cypress, Node.js, Git

FEATURED PROJECTS

CaptureATrip (React.js, Next.js, TypeScript, Redux, REST APIs, Razorpay). Designed and developed a scalable travel platform with reusable modular components, React Hooks, state management, responsive design, and optimized performance.

Analytics Dashboard (React.js, TypeScript, D3.js, Redux). Built a high-performance data-driven application with reusable component library, API integration, and responsive UI optimized for speed and scalability.

PROFESSIONAL EXPERIENCE

Frontend Developer, CaptureATrip, Gurgaon

Feb 2025 - May-2026

Led frontend architecture decisions and implemented best practices for a scalable travel platform using React.js, Next.js, TypeScript, and Redux.

Designed and developed reusable, modular UI components using React Hooks, functional components, and component lifecycle patterns.

Integrated RESTful APIs and backend services; optimized applications for performance, scalability, and responsiveness across devices.

Ensured code quality through reviews, coding standards, and best practices; mentored junior developers on React patterns and async programming.

Frontend Developer, Techdock Labs

Jan 2023 - Feb 2025

Designed and developed scalable, high-performance frontend features using React.js, TypeScript, React Hooks, and functional components for a B2B SaaS application.

Built and maintained reusable, modular UI component libraries with deep understanding of component lifecycle and state management (Redux, Context API).

Hands-on with API integration (RESTful services); implemented closures, async programming patterns, and DOM manipulation for complex UI interactions.

Optimized applications for performance and responsiveness; ensured code quality through Jest testing, code reviews, and enforced standards.

EDUCATION

Master of Computer Applications (MCA)

2019 - 2021

Integral University

Bachelor of Computer Applications (BCA)

2016 - 2019

- Integral University

ADDITIONAL INFORMATION

Languages: English, Hindi.

Tools: Git, GitHub, Vercel, Webpack, NPM, VS Code, Chrome DevTools, Figma.

Strengths: Frontend architecture, React Hooks & functional components, state management, performance optimization, API integration, code quality & reviews, responsive design, team leadership.
