

NAZIR ALI SIDDIQUI

FRONTEND SOFTWARE DEVELOPMENT ENGINEER

3+ yrs · React · Next.js · TypeScript

Gurgaon, Haryana, India · itsnazirali1010@gmail.com · +91 7007297120 · [Portfolio](#) · [GitHub](#) · [LinkedIn](#)

SUMMARY

Frontend engineer with 3+ years building scalable, accessible products in React.js, Next.js and TypeScript. I own features end to end — UI/UX feasibility with design, pixel-accurate implementation, API integration, performance — and build the component libraries and design-system foundations other engineers ship on.

TECHNICAL SKILLS

Core	JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js, React Hooks
State & Data	Redux Toolkit, Zustand, Context API, REST APIs, Axios, React Hook Form, Zod, GraphQL (basic), Node.js
UI & Quality	Tailwind CSS, SCSS, ShadCN UI, Material UI, responsive design, WCAG accessibility, Jest, React Testing Library, Cypress
Architecture	Design systems & reusable UI libraries, micro-frontends (Module Federation), performance optimization (code-splitting, lazy loading, virtualization), Git/GitHub, CI/CD, Vite, Webpack

EXPERIENCE

Frontend Developer *Capture A Trip, Gurgaon* Feb 2025 – Jul 2026

- Owned end-to-end delivery of user-facing features on a consumer travel platform (React.js, Next.js, TypeScript, Zustand), shipping pixel-accurate, cross-browser, accessible interfaces with product and design.
- Built the in-house component library — the foundation of the company design system — on ShadCN UI and Material UI primitives, keeping UI consistent and cutting new-page build time.
- Built a drag-and-drop Kanban board in the internal CRM, giving sales a live pipeline of leads and bookings with optimistic updates.
- Integrated REST APIs and Razorpay payments; shipped typed, validated booking forms with React Hook Form and Zod, reducing failed submissions.
- Led architecture decisions and code reviews, enforced coding standards, and mentored juniors on React patterns and async programming.

Frontend Developer *Techdock Labs, Gurgaon* Jan 2023 – Feb 2025

- Built high-performance features for a B2B SaaS app in React.js and TypeScript with Redux Toolkit and Context API; maintained modular component libraries.
- Integrated REST APIs and optimized rendering for responsiveness at scale; upheld quality with Jest tests and structured code reviews, translating Figma specs into production UI.

Frontend Developer Intern *Techdock Labs — production UI components in React and SCSS* Jul 2022 – Dec 2022

PROJECTS

- CarSalhakar** — Next.js, TypeScript, Tailwind CSS. Production car advisory platform — server-rendered listing/detail pages, Zod-validated forms, image-optimized responsive UI and route-level code-splitting.
- CleanFrame** — React, Next.js, AI image API. AI watermark remover — drag-and-drop upload, async job handling, progressive result previews.
- Portfolio** — Next.js, Framer Motion. [nazirali.site](#) — animated, accessible personal site with strong Core Web Vitals.

EDUCATION & OTHER

MCA, Integral University, Lucknow 2019 – 2021

BCA, Integral University, Lucknow 2016 – 2019

Strengths Frontend architecture, browser internals, performance, code quality, mentoring

Languages English, Hindi
